

## **Part Time Growing to Full Time**

### **Music Therapist Openings**

Living Spirit Therapy Services, LLC is a music therapy private practice serving clients in-home. Clients are seen individually and in groups. The practice specializes in music therapy services for seniors, hospice, and those with neurologic issues such as stroke and Parkinson's disease. Individuals with autism spectrum disorders, developmental disabilities, mental health issues, and children and young adults with other needs are also served. Living Spirit Therapy Services strives to improve the quality of life of clients by treating their holistic needs. We strive to empower clients and their loved ones to move beyond disability and illness to access the living spirit in everyone; helping clients develop, practice, and utilize skills and techniques to help them live rather than just survive and cope with illness and disability. We emphasize the use of Neurologic Music Therapy (NMT) techniques in our work.

We are looking for an hourly, benefited employee to join our dynamic, growing team serving the Twin Cities metro area of MN. The emphasis of this current caseload is memory care and children with autism spectrum disorders. There is a potential to grow the caseload to individual interests. The position will start part time and grow to full time.

#### **Job Requirements:**

- Board Certified Music Therapist, holding the MT-BC credential
- The ideal candidate will be NMT trained, or be willing to complete the next NMT training
- Have outstanding time management and organizational skills
- Be self-motivated, able to work independently, optimistic, and open-minded; and have a desire to grow as a therapist and be part of a dynamic team of music therapists
- Have experience working with seniors and children
- Be able to assess clients and adapt therapeutic music experiences to meet immediate needs
- Have excellent musical skills including quality vocal tone, and ability to adapt music to stimulate, relax, and facilitate movement
- Have good verbal, written, and interpersonal skills
- Be willing to respond to communications quickly
- Adhere to the Standards of Clinical Practice and the Code of Ethics of the American Music Therapy Association and the Code of Professional Practice of the Certification Board for Music Therapists and
- Have reliable transportation and willingness to serve clients throughout the Twin Cities metro area

Interested candidates should submit two letters of reference and resume to Melissa Spiess, M.M., MT-BC, Neurologic Music Therapy Fellow at [melissa@livingspirittherapy.com](mailto:melissa@livingspirittherapy.com) or contact Melissa at 651-363-3936 for more information.
