

Legacy Gifts and Digital Services

Are you looking for creative ways to preserve your legacy or to use music when a music therapist is not available?

Living Spirit Therapy Services now provides enhanced music legacy and recording services!!

With these services you can:

- Share important memories, stories, wishes, and events; and we can guide you through turning them into a song through simple questions, or can write one for you. We make this a fun and easy process with absolutely no musical experience or talent required!! We can even record them and write them out for you.
- Record the voice and laughter of loved ones sharing memories and associations triggered through music
- Create life soundtracks with guidance identifying important events and periods in your life and the songs that are associated with them. We can create recordings for you to share with your loved ones.
- Create personalized playlists to decrease agitation and/or anxiety, to structure interaction and sharing of memories, and/or to assist with cares
